# Tankoa Project Bolide Yacht

by Justin Richards

Care to take your quest of adventure to the high seas? The Tankoa Project Bolide Yacht may be just the vessel to do it in. It was designed by Italy's Fabio Mazzeo, and at 6,400 square feet, boasts quite the room for a good time. An elevated owner's deck, five VIP suites and 5,400 square feet of glass combine to form the ultimate getaway on water. Other amenities to enjoy include a helipad, three pools, a jacuzzi and multiple areas for lounging, so you can be sure a spectacular view is never too far away.
